ANDROID DEVELOPER

Passionate about mobile app development, I am eager to secure a position as an Android Developer. Proficient in the Kotlin programming language, I have completed several personal projects showcasing my ability to design and develop dynamic mobile applications. While my professional experience in this field almost one year, I am dedicated to continual learning and skill enhancement. I am enthusiastic about contributing my expertise and creativity to a team of professionals in the fast-paced realm of Android development.

EXPERIENCE

Android Developer

Innova Bilişim

September 2023 – Present

Hybrid – İstanbul, Turkey

- This Android App was developed using a SDK that uses WebRTC and this SDK was developed by Orion Innovation.

PERSONEL PROJECTS

Wake Friends Up

Kotlin, MVVM, Coroutines, ViewModel, LiveData, Navigation Component, Hilt, Firebase

[Source Code](#)

- You can create group with your friends and wake up together.
- Used Firebase for Auth and Database operations
- Coded with **MVVM** design pattern

SpendTogether

Kotlin, MVVM, Firebase, Coroutines, ViewModel, LiveData, Retrofit, Dagger Hilt

[Source Code\(Private\)](#)

- Used Firebase as Auth server and Database
- **SpendTogether** calculates and splits your spending with your friends
- Coded with **MVVM** design pattern
- Used Multimodule architecture

NotesApp

Kotlin, MVVM, Room, ViewModel, LiveData, Kotlin Flows, Diffutil with RecyclerView

[Source Code](#)

- [Google Play Store](#)
- Used Room Database for **CRUD** operations
- Can add label for notes
- Search specific notes with note's title
- Coded with **MVVM** design pattern

TECHNICAL SKILLS

Languages : Kotlin, Java, SQL, HTML, CSS, JavaScript

Databases : MongoDB, PostgreSQL, Firebase

Dev Tools : Android Studio, Git Version Control System, Github

Other Tools : Figma, Notion, Trello, Jira

EDUCATION

Marmara University

Bachelor Degree of Computer Engineering

Istanbul, Turkey

October 2019 – June 2023

CERTIFICATIONS

- [Android Mobile Application Development Training With Kotlin Basic Level - BTK](#)
- [Advanced Android Mobile Application Development Training With Kotlin - BTK](#)
- [Git And Github Tutorial Participation Document](#)
- [ROTARY - RYLA \(Rotary Youth Leadership Awards\)](#)

LANGUAGES

Languages : English - Upper Intermediate

OTHER EXPERIENCES

Summer Work And Travel Exchange Program - 2022

I've had different jobs and traveled a lot, which has been really cool! I've learned a bunch of stuff from all the jobs I've done. From starting as a beginner to leading teams, I've learned how to work with others and how projects are managed. It's been interesting to see how things work in different places. Also, traveling has been amazing! I've been to lots of different countries and learned about different cultures. It's helped me become better at adapting to new situations. I've also been working on my English because it's important for talking to people from all over the world. Overall, I've learned a lot from my experiences, and I'm always trying to learn more!
